Chilliwack Land Company fonds.

1883-1921.

12 cm.

Based on its advertising in the local newspaper, the Chilliwack Land Company is known to have existed from June 1917 to November 1922. It dealt in real estate brokerage and conveyancing, and general insurance. Its principals at various times included George Robertson, W. McKirdy, G. H. Campbell, and H. T. Thompson.

Provenance of this fonds is attributed to the Company on the basis of its rubber stamp marks which appear on many of the documents dated from 1918 to 1921. It is not known how these records came into the possession of the Chilliwack Museum and Historical Society, although the Society's records indicate that they were accessioned before 1984.

These files consist largely of deeds and mortgages related to property transactions in Chilliwack. They are of intrinsic interest, in addition to providing information on settlement and land values in the community.

Title from internal evidence in the fonds.

Finding aid: Inventory of items.
